Kindle Users

Good Group yesterday! Attached is a jpeg of the shortcuts that you can print out. Just use regular paper and print it in fast draft and it will be easy to read and keep handy for short cuts on your Kindle Key Board.

The link for Kindle for Dummies is:

<http://www.dummies.com/how-to/content/the-essentials-of-using-a-kindle.html>

This web site has many answers to your questions. Do a little exploring and maybe next month at the Kindle Users Group you can share a revelation that you found!

Copy and paste the above web address into your web browser, either Internet Explorer or Firefox.

If you have any problems, let me know.

Setting the Time on your Kindle

When you are reading, if you push the menu button, the time will display at the center of the top of your page! If the time is incorrect, you can fix that!

From the home page, push the **Menu** button, curser down to **Settings**.

Choose **Settings** using your five way controller. Note that there are three pages under settings. You will need to turn to the second page.

Curser down to **Device Time**, you can choose to set it automatically or manually. If you choose manually, use your curser to adjust the time and save it when you are finished.

Explore other items under settings to see if any of them will be useful to you.
