### SCAMs, How to avoid them!

Instructor: Sue Davis  
Fee: \$20 Member / \$30 Non-member  
1:00-4:00, Wednesday, October 19  
Prerequisites: None.

Whether it's phone, email or popups come find out how to keep yourselves safe. The Scammers are getting smarter and there are more of them. We will discuss phone scams that we all get. Email scams are pretty sophisticated but there is a way you can tell if it's real or not. Popups are on the rise telling you that you have a virus, or someone trying to hack you, it can be scary but there is a way to get out of it. No computers will be used for the class but there will be handouts.

### Home Networking

Instructor: Greg Thumma  
Fee: \$20 Member / \$30 Non-member  
1:00-4:00, Wednesday, October 26  
Prerequisites: None.

This will be a discussion of the equipment you will require for home internet access. We will cover modems, routers, mesh networks in the case that the router does not cover your entire house. We will discuss how to match your equipment to the type of internet access you have. We will discuss when perhaps it is appropriate to update your equipment. Questions will be answered.

### Computer Backups, Don't Lose Your Data!

Instructor: Greg Thumma  
Fee: \$20 Member / \$30 Non-member  
1:00-4:00, Wednesday, November 2

Prerequisites: Bring your laptop, USB thumb drive, and your backup up drive

This course will teach you how do several things. We will answer the question of when to backup. The second item will be how to clean your computer file system. Thirdly we will download Macrium Reflect Free and install it on your computer. Fourthly will be the backup of your computer hard drive and lastly the creation of a backup up media in case you must do a restore of image. You need to bring your own equipment so you can perform these tasks.

### Cutting the Cord

Instructor: Greg Thumma  
Fee: \$20 Member / \$30 Non-member  
1:00-4:00, Wednesday, November 9

Prerequisites: None

Traditional TV is no longer available to most of us in the Village (thank you mountains). We have been using streaming services and the prices keep rising. Nothing is free but perhaps we can help with streaming services alternatives. We will discuss how to connect to the internet. Look at streaming services alternative such as Roku, Amazon Firestick, and Apple TV. We will examine streaming services such as You Tube TV, Hulu, Netflix, Paramount +, and Amazon Prime. Questions will be answered

## **Windows Essentials Series**

Instructor: Rob Tillotson

Fee: \$20 Member / \$30 Non-member

1:00-4:00, Wednesday, November 9

Prerequisites: Successful completion and/or equivalent knowledge of basic computer skills.

This course is designed to give the new or new to Windows user the necessary information to effectively use his/her computer's Windows operating system. It is also designed to show those contemplating upgrading to a Windows 11 computer what to expect in the new system. It will show the uses of Microsoft's new user interface and changes to Windows system components. The student will see that the newer, faster and more transparent system is similar to the old ones but better. Major apps in the Start menu will be discussed. We'll talk about essential utilities and changes to the ones you are used to, the student should be able to productively use the three latest Operating Systems after the course.

The desktop and major system tools will be covered thoroughly so the student will be able to get the best use from them and be better prepared for the other Windows course offerings. Some of the settings system tools will be covered more thoroughly in this series. Bring your questions and we will try to work them into the series. This course is a must for all but the expert users.
