

Computer Club of Hot Springs Village
GENERAL MEETING MINUTES
March 22, 2018

President Derrell Dean welcomed 33 members and guests to the General Meeting of the Computer Club of Hot Springs Village which began at 6:30 pm following a help session at the Coronado Center in Room 6. Visitors were acknowledged. Three new members were recognized. Minutes of the February 22 meeting were approved after a motion from Ted Elzerman and second by Mike Reid.

Derrell announced we needed a Registrar and a Webmaster for the second half of the year. Please let him know if you are interested or have a candidate to recommend. Membership numbers have dropped over the last few years and fees at the Coronado Center have continued to increase causing us to raise class fees to \$15 for members in the Fall Semester. Now is the time to interest your friends and neighbors in the Club.

Rob Tillotson said the Club will be offering an additional Help Session on the first Thursday of the month. We will then have a Help Session available to members on the first Thursday, second Tuesday, third Thursday and prior to the general meeting on the fourth Thursday each month.

The Drone class scheduled for April 24 has been cancelled.

Rob discussed using Office Online and Derrell discussed using Google Drive.

Programs Director David Kirsch suggested that Disk Clean Up should be run twice every month on your C drive. Once to free up disk space and again to cleanup system files.

Derrell then presented the evening's program – Spring Cleaning For Your Computer. He suggested using Macrium Reflect, a free download. He then went through the steps to use the program.

Pat Bowles played Derrell's version of "Let's Make A Deal" and received a door prize of \$5.00 cash.

Respectfully submitted,

Esther Halbrook, Secretary
